

Bevel Power Brush Twisted

Elevate your cleaning routine with the Kaspro Bevel Power Brush, a versatile and powerful tool designed to tackle even the toughest cleaning tasks. This brush combines the strength and durability of twisted carbon steel and stainless steel to deliver exceptional cleaning performance. Its beveled shape allows for effortless maneuverability, ensuring that every nook and cranny is thoroughly cleaned.

The twisted carbon steel and stainless steel bristles provide excellent scrubbing power, effortlessly removing dirt, grime, and rust from various surfaces. The Kaspro Bevel Power Brush is engineered to deliver outstanding results from automotive parts to metal surfaces and industrial equipment.

With a bristle diameter of approximately 0.3 inches (7.6 mm), this brush can access hard-to-reach areas, making it highly effective in cleaning tight corners and crevices. Its shank diameter of approximately 0.25 inches (6.4 mm) allows for easy attachment to most power drills, ensuring compatibility and convenience. Measuring an overall length of approximately 4 inches (101.6 mm), the Kaspro Bevel Power Brush offers a compact and manageable size for comfortable handling and precise control. Its maximum RPM of 10,000 ensures efficient and quick cleaning, reducing the time and effort required for each task.

Technical Specification:

Item Name:	Bevel Power Brush
Brand:	Kaspro
Material:	Carbon Steel & Stainless Steel
Bristle Type:	Twisted
Shape:	Bevel
Application:	Cleaning, rust removal
Suitable Surfaces:	Metal, wood, concrete
Wire Dia:	0.5mm
Type:	Metal
Max. RPM:	12,500
Wire:	M14x2
Part No:	KASBBTS100
Wire Spread:	100mm

Insulation:

The Kaspro Bevel Power Brush features a durable, insulated handle to ensure user safety. The handle is designed to provide a comfortable grip and protect against electrical conductivity, minimizing the risk of shocks or accidents during use. Please exercise caution and adhere to the safety precautions below to ensure a safe and productive cleaning experience.

Safety Precautions:

1. Always wear appropriate personal protective equipment, including safety goggles, gloves, and a dust mask, when using the Kaspro Bevel Power Brush.
2. Before attaching the brush to a power drill, ensure that the drill is turned off and unplugged.
3. Carefully inspect the brush for any signs of damage or wear before each use. Do not use a damaged brush.
4. Maintain a firm grip on the power drill and avoid excessive pressure while operating the brush.
5. Keep your hands and fingers away from the rotating brush to prevent injuries.
6. Avoid using the brush on delicate or easily damaged surfaces.
7. After use, unplug the power drill and safely store the brush in a dry and secure location, out of reach of children.

Disclaimer:

The Kaspro Bevel Power Brush is only designed for general cleaning.
