

# Eye Wash

The Kaspro Eye Wash Station is a cutting-edge and indispensable safety apparatus engineered to safeguard vision in work environments where eye exposure to hazardous materials is a potential risk. Ensuring the utmost protection and peace of mind, this meticulously designed eye wash station guarantees rapid and effective eye irrigation in case of emergency.

## Key Features:

**Swift Activation:** The Kaspro Eye Wash Station is designed for quick and effortless activation, ensuring that precious seconds are not wasted when addressing eye-related emergencies. Its push-plate mechanism allows anyone, regardless of their training level, to initiate the eye wash process instantly.

**User-Centric Design:** Our eye wash station places a premium on user comfort and ease of use. Its ergonomically designed bowl and eyewash nozzles are positioned for optimal user experience with minimal discomfort.

**High-Visibility Signage:** In emergencies, rapid identification is crucial. Kaspro Eye Wash Stations are equipped with high-visibility signage and lighting to ensure that they are unmistakably recognized when needed most.

**Built to Last:** We understand the importance of long-term reliability. The Kaspro Eye Wash Station boasts a robust and corrosion-resistant ABS construction that can endure the test of time, providing years of consistent performance.

## Technical Specification:

Item Name:	Eye Wash Station
Brand:	Kaspro
Color:	Blue & Yellow
Material:	Corrosion-resistant ABS
Water Flow Rate:	1.5 liters per minute
Activation Method:	Push Plate Mechanism
Water Temperature:	Ambient
Water Pressure:	0.2 - 0.4 MPa
Eye Wash Bowl Material:	Stainless Steel
Mounting:	Wall-mounted
Dimensions (H x W x D):	22" x 18" x 10"
Weight:	12kg

### **Insulation:**

The Kaspro Eye Wash Station is equipped with built-in insulation to protect users from temperature extremes. This feature ensures that the water delivered to the eyes is maintained at an ambient temperature, preventing further discomfort in emergencies.

### **Safety Precautions:**

1. **Training:** Users should be trained on the proper usage of the eye wash station to ensure they can respond effectively in an emergency.
2. **Maintenance:** Regularly inspect and maintain the eye wash station to ensure it is in optimal working condition.
3. **Emergency Plan:** Have an emergency response plan in place and communicate its procedures to all personnel.
4. **Eye Protection:** Always use appropriate eye protection in hazardous environments to prevent accidents.
5. **First Aid:** After using the eye wash station, seek medical attention to assess any potential injuries or lingering effects.

### **Disclaimer:**

Kaspro Eye Wash Station is designed to provide emergency eye irrigation in the event of exposure to hazardous substances. While every effort has been made to ensure its reliability and safety, it is essential to use this product in accordance with safety guidelines and best practices.

The manufacturer shall not be held responsible for any misuse, accidents, or injuries resulting from the improper use or maintenance of the eye wash station. Always follow local safety regulations and guidelines when handling hazardous materials and seek professional medical attention if needed.
