

# FR Tarpaulin

Regarding safeguarding your life, property, and peace of mind, the Kasweld Fire Tarpaulin is an unparalleled choice in fire safety equipment. Imagine having a versatile, dependable shield between you and the raging inferno. It's not just a tarp; it's your first line of defense in a fire emergency.

Constructed from high-grade flame-resistant PVC, the Kasweld Fire Tarpaulin is meticulously engineered to withstand the harshest conditions. Measuring a generous 10 feet by 12 feet, this tarp is your trusted companion in various settings, from homes and businesses to industrial sites and outdoor adventures. What sets the Kasweld Fire Tarpaulin apart is its remarkable temperature resistance. This tarpaulin remains unfazed from the bitter cold of  $-30^{\circ}\text{C}$  to the searing heat of  $600^{\circ}\text{C}$ . Whether you need to shield your property from wildfires, protect valuables in an industrial environment, or create a safe escape route during a fire emergency, the Kasweld Fire Tarpaulin is up to the task.

Safety is paramount, and we've spared no effort in ensuring this tarpaulin meets the highest standards. It proudly complies with NFPA 701, CPAI-84, and ASTM E84 fire retardancy regulations, assuring you of its exceptional flame-resistant properties.

## Technical Specification:

Item Name:	Fire Tarpaulin
Brand:	Kasweld
Weight:	8.5 kg
Temperature Resistance:	$-30^{\circ}\text{C}$ to $600^{\circ}\text{C}$
Material:	High-Grade Flame-Resistant PVC
Flame Retardancy:	Meets NFPA 701 & ASTM E84
UV Resistance:	Yes
Tear Strength:	350 N
Waterproof:	Yes
Color:	Orange
Eyelets:	Reinforced Brass
Durability:	High-Tensile Fabric
Chemical Resistance:	Resistant to Acids

## Insulation:

The Kasweld Fire Tarpaulin is engineered with state-of-the-art insulation technology. Its high-quality, flame-resistant PVC material is a barrier against extreme temperatures, effectively insulating and protecting your surroundings. This tarp is designed to withstand temperatures ranging from a chilling  $-30^{\circ}\text{C}$  to a scorching  $600^{\circ}\text{C}$ , making it an ideal choice for indoor and outdoor fire safety applications. Rest assured, with the Kasweld Fire Tarpaulin, you're fortified against the most intense heat scenarios.

## Product Specification:

6M X 6M 300 GSM

10Mx10M 500 GSM

## Safety Precautions:

- 1. Proper Deployment:** Ensure the Kasweld Fire Tarpaulin is spread out flat and secured tightly to prevent any gaps or openings that could allow flames to penetrate.
- 2. Regular Inspection:** Inspect your tarpaulin for any signs of wear and tear. Replace it immediately if you notice damage to maintain its fire-resistant properties.
- 3. Storage:** Store the tarpaulin in its provided heavy-duty storage bag away from direct sunlight and extreme temperatures when not in use.
- 4. Training:** Familiarize yourself and your team with proper tarpaulin deployment techniques. Practice ensures a swift response during emergencies.
- 5. Keep Flammable Materials Away:** Do not store or use the tarpaulin near flammable materials, fuels, or open flames.
- 6. Wind Considerations:** Be cautious when using the tarp in windy conditions. Secure it firmly with the included ropes and stakes.

## Disclaimer:

The Kasweld Fire Tarpaulin is a fire safety tool designed to provide protection against flames and extreme heat. While it is engineered to meet rigorous safety standards, its effectiveness depends on proper deployment and usage. Kasweld is not liable for any misuse or improper handling of the Fire Tarpaulin.

Always follow safety guidelines and regulations in your area and consult with local authorities for fire safety recommendations.
