

Twisted Cup Brushes

Discover the unrivaled efficiency and reliability of the Kasweld Twisted Cup Brush – the ultimate tool for tackling tough metal surface preparation and cleaning tasks with ease. Whether you're a seasoned professional or a DIY enthusiast, this exceptional brush, available in both Carbon Steel and Stainless Steel variants, is designed to deliver outstanding results every time.

Premium Bristle Material: The Carbon Steel variant features high-quality carbon steel bristles, while the Stainless Steel variant boasts robust stainless steel bristles. These sturdy materials ensure longevity and efficient performance.

Twisted Cup Design: The serpentine cup shape allows for aggressive yet controlled brushing action, ensuring efficient material removal without excessive wear on the brush or the workpiece.

Optimal Diameter and Wire Thickness: Available in various diameters and wire thicknesses, the Kasweld Twisted Cup Brush adapts to different tasks, providing optimal coverage and superior cleaning ability.

Secure Arbor Fit: The brush is designed to easily fit most angle grinders, ensuring stability during operation and minimizing the risk of accidental detachment.

User-Friendly Operation: The brush's design enables smooth and hassle-free operation, providing comfort and control for extended periods of use.

Technical Specification:

Item Name:	Twisted Cup Brush
Brand:	Kasweld
Material:	Carbon Steel / Stainless Steel
Brush Type:	Twisted brush
Compatibility:	Angle Grinders
Application:	Rust Removal, Deburring & more
Bristle Material:	High-quality
Color:	Blue and Green
Unit:	EA
RPM:	Max 3500
Precaution:	Eye Protection
Attachment:	On the top

Insulation:

1. Always wear appropriate personal protective equipment (PPE) when using the Kasweld Twisted Cup Brush to prevent injury.
2. Ensure the power tool is turned off and unplugged before attaching or removing the brush.
3. Carefully inspect the meeting for any damage or abnormalities before each use. Do not use it if the brush is damaged.
4. Keep hands and body clear of the bush during operation to avoid accidental contact and potential injury.
5. Use the meeting only for its intended purposes and follow the recommended RPM and usage guidelines.

Safety Precautions:

1. Read and understand the user manual of your angle grinder or power tool before using the Kasweld Twisted Cup Brush.
2. Wear safety goggles, gloves, ear protection, and a dust mask to shield against flying debris and potential hazards.
3. Ensure the work area is well-ventilated to minimize exposure to dust and fumes.
4. Avoid excessive pressure when using the brush, as it may cause the bristles to break and scatter.
5. Do not use the brush on uneven surfaces or edges to prevent kickbacks.
6. Allow the brush to reach full operating speed before starting your cleaning or preparation task.
7. Always keep a firm grip on the power tool and maintain proper balance during operation.
8. Do not use the brush near flammable materials or in explosive environments.

Disclaimer:

The Kasweld Twisted Cup Brush is designed for industrial and domestic use, specifically for surface preparation, rust removal, paint stripping, weld cleaning, and deburring applications. While we have taken great care in crafting a durable and high-quality product, the usage of this brush is solely at the user's discretion and risk.
