

Welding Hand Shield

Discover Unmatched Welding Safety and Comfort with Kasweld Welding Hand Shield! Are you in search of the perfect welding hand shield that combines cutting-edge protection with unmatched comfort? Look no further than the Kasweld Welding Hand Shield! Crafted with unwavering dedication to welders' safety, this exceptional piece of welding gear is engineered to elevate your welding experience like never before.

The Kasweld Welding Hand Shield boasts a premium lens shade of # 10 (DIN), providing optimal visibility and shielding your eyes from harmful arc rays. Its large viewing area, approximately 4.5 inches by 3.5 inches, ensures a clear and unobstructed view of your workpiece, allowing for precise welding with utmost ease. Our welding hand shield is forged from high-grade fire-resistant polycarbonate material, offering unrivaled protection against sparks, spatter, and intense welding heat. Feel confident in every welding task, knowing that Kasweld has your safety covered.

Say goodbye to discomfort and irritation during long welding sessions! The Kasweld Welding Hand Shield comes equipped with an adjustable nylon headband and ratcheting headgear. This ensures a secure and comfortable fit, custom-tailored to suit your preferences. No more distractions - just focus on perfecting your welds.

Technical Specification:

Item Name:	Welding Hand Shield
Brand:	Kasweld
Material:	High-Grade Fire-Resistant
Lens Shade:	#10 (DIN)
Viewing Area:	4.5 inches x 3.5 inches
Headgear Type:	Ratcheting Headgear
Headband Material:	Adjustable Nylon
Lens Coating:	Scratch-Resistant and Anti-Fog
Recommended Use:	Welding and Cutting Applications
Face Shield Angle:	Adjustable
UV Protection:	Yes
Optical Clarity:	Excellent
Replaceable Lens:	Yes

Insulation:

Always inspect the Kasweld Welding Hand Shield before use for any signs of damage or wear. If any defects are found, do not use the product and replace it immediately. Ensure proper fitting of the headgear to avoid slippage or inadequate protection during welding operations.

Safety Precautions:

1. Always inspect the Kasweld Welding Hand Shield before use for any signs of damage or wear. If any defects are found, do not use the product and replace it immediately.
2. Ensure proper fitting of the headgear to avoid slippage or inadequate protection during welding operations.
3. Use the welding hand shield only for its intended purpose - welding and cutting applications. Avoid using it for any other tasks to maintain its protective integrity.
4. Avoid exposure to direct flames or extreme temperatures that may compromise the shield's fire-resistant properties.
5. Regularly clean the lens using a soft, lint-free cloth to maintain visibility and efficiency during work.
6. Store the welding hand shield in a cool, dry place, away from direct sunlight and corrosive substances.

Disclaimer:

Kasweld, its distributors, and sellers shall not be liable for any injuries, damages, or accidents that may occur during the use of the Kasweld Welding Hand Shield. While the product is designed and tested to comply with safety standards, proper handling and adherence to safety precautions remain the user's responsibility. It is crucial for users to be well-trained in welding techniques and to wear appropriate personal protective equipment at all times. By using this product, the user acknowledges and agrees to assume all risks associated with its use and releases Kasweld from any liability arising from its usage. Experience the pinnacle of welding safety with Kasweld Welding Hand Shield - the ultimate protective gear that ensures your safety while you master the art of welding. Embrace security, precision, and comfort - all in one shield!
