

Data Sheet

Welding Leg Guard

Welding is a critical industrial process that demands utmost precision and safety. The Kasweld Welding Leg Guard stands as a stalwart companion in this endeavor, meticulously designed to offer welders unparalleled protection, ensuring not only safety but also comfort in the most challenging welding environments.

Crafted with an unwavering commitment to quality and safety, the Kasweld Welding Leg Guard is more than just a protective gear; it's a shield that empowers welders to forge ahead with confidence. In the heat of welding, sparks, splatter, and radiant heat are formidable adversaries. The Kasweld Welding Leg Guard is a guardian against these threats.

Constructed from advanced flame-resistant fabric, this leg guard boasts exceptional heat resistance, capable of withstanding temperatures up to a scorching 1500°C. It encapsulates your legs securely, forming an impenetrable barrier between you and the blazing heat, ensuring that every welder remains cool, calm, and collected under extreme conditions. The adjustable strap closure system guarantees a snug and secure fit, allowing welders to move with precision and confidence without the worry of slippage. This leg guard is not just a piece of equipment; it's a partner that adapts to your needs.

Item Name:	Welding Leg Guard	
Brand:	Kasweld	
Material:	Flame-resistant Fabric	
Size:	S, M, L, XL	
Color:	Yellow	
Heat Resistance:	Up to 1500°C	
Closure Type:	Adjustable Straps	
Weight:	Low Weight	
Application:	Welding, Cutting, Grinding	
Unit:	Pair	
Usage:	Industrial	
Neck Strap:	Pull	
		A CONTRACTOR OF THE OWNER

Technical Specification:

Insulation:

The Kasweld Welding Leg Guard is crafted using a flame-resistant fabric designed to withstand extreme heat conditions. Its heat resistance capability of up to 1500°C provides excellent insulation against radiant and direct heat exposure, ensuring the safety and comfort of the user.

Safety Precautions:

1. Always wear the Kasweld Welding Leg Guard when engaging in welding, cutting, or grinding activities to protect your legs from sparks, splatter, and radiant heat.

2. Ensure that the leg guard is securely fastened using the adjustable straps to prevent it from slipping during work.

3. Inspect the leg guard for any damage or wear before each use. Replace if any signs of damage are present.

4. This product is designed for leg protection; do not use it for other purposes.

5. Combine the leg guard with other necessary personal protective equipment (PPE), such as welding helmets, gloves, and flame-resistant clothing, for complete protection.

6. Keep the leg guard away from sharp objects, chemicals, and any materials that may compromise its flame-resistant properties.

7. Follow all applicable safety regulations and guidelines when using the Kasweld Welding Leg Guard.

Disclaimer:

Kasweld is committed to providing high-quality protective equipment. While the Kasweld Welding Leg Guard is designed to provide effective protection, the user is responsible for ensuring their safety by following safety precautions and regulations. Kasweld shall not be held liable for any accidents or injuries resulting from the misuse or neglect of this product. This datasheet is for informational purposes and does not serve as a warranty or guarantee of the product's performance. Please consult the user manual and follow all safety guidelines before using the product.
