

WELDING UMBRELLA

A welding umbrella is a specialized tool that provides shelter for welders working outdoors. It offers protection from the sun, rain, and wind, ensuring that you can weld safely and efficiently in any weather. The Kasweld Welding Umbrella is crafted with durable materials and designed specifically for the rigors of welding, making it a reliable choice for professionals.

Welding outdoors presents unique challenges, especially when dealing with unpredictable weather conditions. Whether it's the scorching sun, a sudden rain shower, or gusty winds, these elements can make welding difficult and impact the quality of your work. The Kasweld Welding Umbrella is designed to protect you and your equipment from the elements, allowing you to focus on the task at hand. This guide will take you through the features, benefits, and technical specifications of this essential tool.

Available options:

Welding umbrella, 220cm Ø

Welding umbrella, 300cm Ø

Technical Specification:

Item Name:	Welding Umbrella
Brand:	Kaweld
Compatibility:	With tilt mechanism
Length:	10 ribs, length 110cm
Mast:	Mast 28mm Ø
Mast Height:	Mast in 2 parts, total height 220cm
Ribs:	Ends of the ribs are fitted with caps
Application:	Welding

Flame retardant and water repellent canvas

- Canvas fabric 350 gr/m²
- Colour green
- Carrying bag included
- Windbreaker on the top side

Unless otherwise indicated all welding umbrellas are:

1. Made from green canvas 350gr/m² PVC fabric
2. The canvas fabric is water-repellent and flame retardant
3. Supplied with metal rings for extra security
4. Supplied with a windbreaker on the upper side
5. Supplied with a carrying bag.

Manufacturers recommendations:

1. The structure and frame should be checked at regular intervals.
2. Regularly check the fabric for tear and/or other damage.
3. Replace the umbrella when necessary.

Conclusion:

The Kasweld Welding Umbrella is an essential tool for anyone who needs to weld outdoors. With its durable construction, wide coverage, and easy portability, it provides the protection and convenience that professional welders need. Whether you're shielding yourself from the sun, rain, or wind, this umbrella ensures that your welding tasks are completed efficiently and safely.
